

Company: TCA Envista, LLC
DUNS: 965544351
CAGE: 5NXW4

Mission: To be a leader in creating and delivering comprehensive energy solutions to promote a sustainable environment and improve an organizations triple bottom line (people, planet, profit).

Introduction: TCA Envista is a full spectrum energy services company with expertise and experience in energy procurement, benchmark and analysis, demand reduction and alternative fuel sources (solar, wind, geothermal, biomass).

As a service-disabled, veteran-owned small business (awaiting certification from the VA) founded by former senior military officers, Envista is committed to America's future and focused on creating a more energy efficient and sustainable country. Envista creates and delivers comprehensive energy solutions so clients can focus on their core competencies.

Philosophy Envista experts operate as an organization's energy management partner, creating savings, delivering results and providing the analytics and metrics demanded by clients to demonstrate success.

Envista recognizes the need to focus on the rapidly emerging world order of sustainability and energy conservation. Envista has developed a unique systematic approach to sustainability that addresses all aspects of a client's energy domain. Energy procurement (electricity, natural gas and renewable solutions) along with delivering sustainable and efficient energy solutions are the cornerstones of Envista.
